Luca Kharitonov

Experienced automation tester with three years of testing and software development experience, specializing in automated performance and web tests, streamlining deployment processes, and creating tools to support software development lifecycles. Searching for a challenging position to use skills in Selenium WebDriver, JavaScript, C#, Powershell, and testing.

Work experience

Automation Tester

Sep 2019 - Present

Carson Limited, Miami

- Implemented and designed performance scripts and scripts and built GUI automation framework and deployment framework for a large financial services company.
- Created, configured, and ran web tests as part of Web API testing to ensure services provided correct and accurate outputs for makes and inputs.
- Configuring and setup workstations and servers while building scrips to populate databases, measure client-side performance, and implement load testing environment.
- Automated build deployments on a daily basis to reduce process time by 30 minutes to an hour.

Junior Automation Tester

Sep 2018 - Aug 2019

The Oracle Company, Miami

- Reviewed failures from test runs and suggested improvements to manual team members.
- Utilized existing techniques and tools to execute and automate test cases as specified by the in-house framework.
- Tracked, documented, and escalated problems using ALM.
- Created and designed test cases to address technical and business use cases.
