AARON ZIMMER

Computer science graduate with experience working across full-stack software development projects. Two years of experience creating apps for use on social media platforms. Searching for a position to put my skills to use while learning from experienced team members.

WORK EXPERIENCE

Present

Web Developer Intern

Morganson's Media, St. Louis

- Created an in-house app using HTML/CSS, React, and Node to allow users to recommend and manage hobbies and games.
- Determined user requirements, built, and maintained code for the app to save more than 15 hours of labor each month.
- Collaborated with senior developer and several interns to brainstorm ideas and implement feedback across the app's development lifespan.
- Was selected as a high-performing intern by the overall technology team.

Social Media Manager

Coryell Inc., St. Louis

- Created a responsive app using Node and Django that let users schedule when posts would go out on various social media platforms.
- Built features using Python that determined the best time of day for engagement on social media posts for an increase of 25% for users.
- Released app for the company and saw it grow to 5,000 active users per month.
- Partnered with peers to troubleshoot and release app to the public after use in-house.

EDUCATION AND QUALIFICATIONS

Bachelor of Science Computer Science

University of Missouri, Kansas City

- Held a 3.9 GPA across an intensive computer science program.
- Was included on the dean's list for seven semesters during the course of the degree.
- Created and ran the university's first computer science club.
