

Efficient, dedicated, versatile and accurate medical scribe with 8 years of experience in pediatric healthcare. BSN and DNP in pediatrics. Experienced in various practice management software applications and MS 365 with a typing speed of 70 wpm. Keen to transition to a virtual medical scribe role to expand my horizons and gain broader experience in pediatric medicine.

WORK EXPERIENCE

Medical Scribe Sep 2014 - Present

Children's Hospital Colorado, Aurora

- Assisting medical practitioners in navigating EHR and locating information for review as requested
 - Researching information relating to reports, test results, lab results and previous notes
 - Accompanying practitioners on patient interviews and examinations
 - Documenting practitioner dictated patient history, including present illness, past medical and surgical history, family histories, medications and allergies
 - Recording physical examination procedures and findings
 - Noting results of laboratory and radiographic studies from dictation
 - Registering time of patient care-related activities, including communication and re-examination
 - Ensuring all documentation is complete and reviewed once patient encounter has concluded
 - Making any required amendments and signing the chart
 - Doing chart rounds with practitioners to review patient status, delays, and other care-related issues
 - Ensuring authentication takes place prior to the practitioner leaving the patient care area
 - Confirming all orders for patient care are communicated by practitioners
-
