Compassionate and Engaging Registered Nurse with 5-years of experience seeking to share my passion for healthcare with a hospital or patient care center in the Dallas / Ft Worth metro area. Exceptional crisis management, emergency room care, and communication skills. Current certifications to serve as a Registered Nurse in The State of Texas, Basic Life Support (BLS), and Emergency Room care. Dedicated to respecting patient privacy rights, while engaging with them and family members in a compassionate manner.

WORK EXPERIENCE

Emergency Room - Staff RN

Aug 2016 - Present

DFW General Hospital, Dallas, Texas

A proud member of DFW General Hospital's Emergency Room RN Staff. Collaborated with an amazing team of healthcare professionals in a Level 1 trauma center in downtown Dallas, Texas - with patient volume often exceeding 50 people of diverse ages.

- Triage patients to determine the priority of care based on psychological, physical, or social needs.
- Managed patient transportation to ICU & Extended Care facilities.
- Provided individual care to patients with a diverse range of medical emergencies.
- Closely monitored patients during intake, treatment, and emergency medical situations.
- Administered medications within compliance of State of Texas regulations.
- Collaborated with a team of medical professionals to ensure a positive patient experience.
- Communicated with patients and loved ones in a calm and engaging manner.
- Maintained a positive attitude in a high-stress environment.

Clinical Practicum - Nursing

Jun 2014 - Jul 2016

Metro General Hospital, Ft Worth, Texas

Participated in an 18-month RN Clinical Practicum program - administered through The University of Texas Dallas nursing school. Completed 960 clinical hours in a high-paced general hospital - engaging with patients, caregivers, and hospital staff.

- Performed emergency medical procedures including cardiac life support, CPR, and emergency first aid.
 - Collaborated with healthcare professionals to manage, plan, and access patient care in a high-volume medical clinic.
 - Completed medical care including intravenous infusions, blood product transfusions, and oxygen intake.
 - Received constructive criticism during weekly reviews from peers and made improvements in a timely manner.
 - Practiced bedside manner, ordered and evaluated diagnostic testing, and communicated with patients/caregivers on treatment changes.
-
