Passionate quality assurance engineer with 5+ years of experience in software and production quality assurance. At previous company, reduced the complete regression test-case count by 38% and was instrumental in saving the company \$15M in refunds. Seeking a position to apply proven planning and testing skills to help streamline ABC Company's product development efforts.

WORK EXPERIENCE

Quality Assurance Engineer

Apr 2018 - Jun 2023

ABC Global, Des Moines, IA

- Wrote test cases and test plans (regression, performance, stress, benchmark, and functionality) that collectively saved over 1,500 labor hours.
- Executed test cases for regression, end-to-end, validation, and functional testing for 14 web applications.
- Created a QA testing document project that saved \$15M in refunds and allowed for quick patch roll-outs.
- Spearheaded the rewrite of all regression test casts reducing regression test-case count by 38%.

Quality Assurance Technician

Sep 2016 - Apr 2018

ZYX International, Des Moines, IA

- Created a QA process that reduced high-impact errors by 15% within 6 weeks of implementation.
- Eliminated 92% of human errors and established consistent test results by building automated test scripts for web applications.
- Reduced product recalls by establishing automated test processes with an ROI of over 1500%.
- Initiated an RFP for negotiated contracts and hardware that results in savings of over \$2.5M.
